3. Approval of minutes

The Chairman noted for the record that copies of the minutes of the annual meeting of the stockholders on April 17, 2018, as they appear of record in the Minute Book of the Company, had been distributed on the floor to all stockholders present. He then submitted the minutes for the consideration and approval of the stockholders.

Upon motion duly made and seconded, the reading of the minutes of the annual meeting of the stockholders held on April 17, 2018 was dispensed with and the minutes were unanimously approved.

4. Approval of Annual Report

The Chairman noted that copies of the 2018 Annual Report of the Company, which had been approved by the Board of Directors, were made available at the meeting.

The Chairman then asked the President, Mr. Bryan U. Yap, to render the exploration report of the Company.

The President made his report based on the exploration report embodied in the 2018 Annual Report, as follows:

We started 2018 exploring for near surface epithermal type gold deposits at Mapaso to augment our mineral resources already blocked in Heine, Ntina and Suyoc areas. Eight drill holes were completed for a total length of 1,841.15 meters. The gold-bearing veins being illegally worked by small scale groups proved to be narrow and sub-economic. We did however, discover an underlying porphyry copper-gold system over which the epithermal veins have been telescoped. At the same time MMC conducted a research and in depth study of Heap Leaching in tropical areas with similar environmental conditions as Placer, Surigao del Norte.

In the second quarter of the year, our Heap Leach study indicated that this could be a more viable option for processing our remaining gold resources because it would entail lower capital and operating costs compared with the original CIP-CIL-Flotation method of mineral extraction. Heap Leaching also eliminates the problem of locating and constructing a tailings pond to contain mill waste. Accordingly, we shifted our exploration strategy to delineate heap leachable resources.

The rest of the year, MMC focused on sampling former mined out areas and adjacent wall rocks to determine potential resources with a gold grade of at least 0.3 grams per ton. Aside from the already blocked ore zones, the exploration team found that some waste dumps exceeded the 0.3gpt Au cut-off for heap leaching. As a result, our certified Mineral Resource totaling about 23 Million Tonnes at a grade of 1.54 grams per ton gold including Ntina and Suyoc could be larger.

A study is being made on reviving the Heap Leach Operations of MMC and possible sites for leaching pads and settling ponds to support 10,000 TPD operations have been determined.

Continuing Mine Engineering studies were made on mining the Ntina, Suyoc and Heine resources that include: Mining Programs, Financial study, Capital Cost Estimate and a possible new Tailings Dam using two (2) options at

5,000 TPD and 10,000 TPD milling rate. In addition, we have commissioned Oremet Corporation, a geological services consulting firm, to conduct geological, geo-hazard and infrastructure stability assessment of Tailings Pond No. 7 (TP-7).

For our Care and Maintenance Program, the MMC Environmental team has continuously managed the following: a) 40,000 seedlings capacity per year nursery; b) Wildlife Protection Mini-Park and Ornamental Garden; c) 4. The Bayatakan mangrove forest project; d) 4.5 TP-7 downstream embankment forest e) 6.5 Suyoc Forest Park; and f) the Bayatakan Forest Park. A two (2)-hectare MMC "Prutasan sa Minahan" project was also developed at Bayatakan.

The President then opened the floor for questions. There being none, the Chairman submitted to the stockholders the 2018 Annual Report for approval.

Upon motion of a stockholder, duly seconded, the stockholders unanimously adopted the following resolution:

RESOLVED, That the Annual Report of the Board of Directors of the Company for the calendar year ended December 31, 2018, together with the financial statements of the Company inclusive of the Consolidated Balance Sheet, the Consolidated Statement of Income and Retained Earnings and the Consolidated Statement of Cash Flow as of December 31, 2018, as audited by the Company's independent auditors, Sycip, Gorres, Velayo and Co., and their certification and notes to the financial statements be, and the same hereby are, noted and approved.

5. Election of Directors

Acting on nomination letters duly received, the Nomination Committee has approved the nominations of Mr. Eduardo A. Bangayan and Mr. Rodolfo S. Miranda for re-election as independent directors. In compliance with the rules of the SEC, no further nomination for the two seats may now be made. Therefore, what was open for nomination were the seven (7) remaining board seats for the year 2019 to 2020. The Chairman then declared the table open for nominations to the seven (7) board seats.
