MANILA MINING CORPORATION
NOTES TO FINANCIAL STATEMENTS**Note 1 – General Information and Status of Operations**

Manila Mining Corporation (the Parent Company; the Company) was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on June 3, 1949, primarily to carry on the business of mining, milling, concentrating, converting, smelting, treating, preparing for market, manufacturing, buying, selling, exchanging and otherwise producing and dealing in precious and semi-precious metals, ores, minerals and their by-products. The parent company's shares are listed and traded on the Philippine Stock Exchange (PSE). On April 16, 1999, the SEC approved the extension of the Parent Company's corporate term for another fifty (50) years upon expiration of its original term on May 30, 1999. Lepanto Consolidated Mining Company (LCMC), a publicly listed company, and its subsidiaries, has 20% equity interest in the Company.

The principal office of the Parent Company is located at the 20th Floor, Lepanto Building, 8747 Paseo de Roxas, 1226 Makati City.

The parent company had a total of Forty Three (43) regular employees as of 30 June 2021.

On May 11, 2011, the Parent Company, Kalayaan Copper-Gold Resources Inc. (KCGRI) and Philex Mining Corporation (Philex), finalized an agreement for the exploration and joint development of the Kalaya-an Project located in Placer, Surigao del Norte.

Prior to the expiration of EP-XIII-014-B, an application for another renewal was filed by KCGRI on 18 April 2012 for the purpose of conducting a more in-depth and detailed exploration in the area and to complete the feasibility study.

Pursuant to the agreement, the Parent Company sold to Philex a total of 125,000 shares of stock of KCGRI, representing a 5% interest in KCGRI, for a consideration of US\$25 million. Philex shall earn an additional 55% interest in KCGRI by sole-funding all pre-development expenses including a final feasibility study for the Project. The development of the Project shall be undertaken jointly by the Parent Company and Philex.

Note 2 – Basis of Preparation, Statement of Compliance, and Changes in Accounting Policies and Disclosures

The consolidated financial statements of the Group have been prepared under the historical cost basis, except for financial assets designated at FVOCI, and quoted AFS financial assets that have been measured at fair value. The consolidated financial statements are presented in Philippine Peso, the Parent Company's and the Subsidiary's functional and presentation currency. All amounts are rounded to the nearest peso, except when otherwise indicated.

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs).

The accounting policies adopted in the preparation of the financial statements are consistent with the most recent annual financial statements.

The Group applied PFRS 9 Financial Instruments for the first time from January 1, 2018. PFRS 9 replaces PAS 39, Financial Instruments: Recognition and Measurement for annual periods

beginning on or after January 1, 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting. The Group applied it prospectively and has not restated the comparative information, which continues to be reported under PAS 39. Differences arising from the adoption have been recognized directly in retained earnings and other components of equity. Other than the said changes, the accounting policies adopted are consistent with those of the previous financial year.

The amendments and interpretations below apply for the first time in 2018, but do not have an impact on the consolidated financial statements:

- PFRS 15, *Revenue from Contracts with Customers*
- Philippine Interpretation IFRIC 22, *Foreign Currency Transactions and Advance Considerations*
- Amendments to PAS 40, *Transfers of Investment Property*
- Amendments to PFRS 2, *Classification and Measurement of Share-based Payment Transactions*
- Amendments to PFRS 4, *Applying PFRS 9 Financial Instruments with PFRS 4 Insurance Contracts*
- Amendments to PAS 28 Investments in Associates and Joint Ventures, *Clarification that measuring investees at FVPL is an investment-by-investment choice*
- Amendments to PFRS 1, *First-time Adoption of International Financial Reporting Standards - Deletion of short-term exemptions for first-time adopters*

Note 3– Cash

This includes cash on hand and cash with banks. Cash with banks earn interest at the respective bank deposit rates.

Note 4– Receivables

This account consists of other nontrade receivables which is non-interest bearing comprise mainly of receivables from sub-contractors and third parties.

Note 5– Inventories

This account consists of parts and supplies which are stated at the lower of cost and net Realizable Value and fuel and lubricants which are valued at cost.

Note 6– Pre-payments

This account represents contract deposits & miscellaneous deposit.

Contract deposits pertain to deposits made for future drilling services of its affiliate, Diamond Drilling Corporation of the Philippines (DDCP). This is refundable upon nonperformance of services.

Note 7– Property, Plant and Equipment and Deferred Mine Exploration and Evaluation Costs

Property, plant and equipment, except land, are carried at cost less accumulated depletion, depreciation and impairment, if any. This includes exploration costs which are materials and fuels used, surveying costs, drilling costs and payments made to contractors. Exploration costs are

capitalized up to the point when a commercial reserve is established and are assessed for impairment.

Note 8 – Other Assets

This account consists mainly of Mine rehabilitation fund (MRF), Advances to landowners, miscellaneous deposit, input VAT, and prepaid royalties.

MRF is for physical and social rehabilitation, reforestation and restoration of areas and communities affected by mining activities, for pollution control, slope stabilization and integrated community development.

Advances to landowners pertain to advances made to certain landowners for future purchases of parcels of lands.

Miscellaneous deposits pertain to advances made to local government agencies for pending project agreements.

Input VAT represents VAT paid on purchases of goods and services which can be recovered as tax credit against future tax liability of the Parent Company upon approval by the BIR.

Prepaid royalties are advance payments to claim owners and real property taxes while miscellaneous deposits are advance payments made to suppliers of services.

Note 9 – Financial Assets Designated at FVOCI / AFS Financial Assets

These include quoted and unquoted equity instruments.

Available for sale investment was reclassified as financial assets designated at fair value through other comprehensive income (FVOCI) in application for the new PFRS 9 Financial Instruments implemented for the first time.

Quoted AFS financial assets pertain to investment on common shares of various local public companies and are carried at fair value on the exit market price. Unquoted AFS financial assets pertain to investment in private company which have no fixed maturity date or coupon rate and are carried at cost.

Movement in the “Fair value reserve of financial assets designated at FVOCI” presented as separate component of equity amounted to **-P55.208** Million.

Note 10– Accounts Payable and Accrued Expenses

These represent Trade payable and accrued expenses. Trade payable include local purchases of equipment, inventories and various parts while accrued expenses includes accrued payroll which are normally payable within five (5) to ten (10) days.

Note 11 – Non-trade Payables

This account represents payables to affiliates.

Note 12 – Retirement Benefits Obligation

Under the existing regulatory framework, Republic Act 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

The net defined retirement benefits liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method. Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined retirement benefits liability or asset
- Remeasurements of net defined retirement benefits liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in consolidated statement of comprehensive income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined retirement benefits liability or asset is the change during the period in the net defined retirement benefits liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined retirement benefits liability or asset. Net interest on the net defined retirement benefits liability or asset is recognized as expense or income in statement of comprehensive income.

Remeasurements, comprising actuarial gains and losses, are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to statement of comprehensive income in subsequent periods.

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined retirement benefits liability is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Management's Discussion and Analysis of Financial Condition and Results of Operations

As of 30 June 2021

With no operations, revenue in the second quarter was nil. Expenses, consisting of depreciation and administration costs, amounted to P0.62 million, compared with P0.38 million for the same quarter in 2020. The increase is due to the PSE listing fee. There having been no operations, the said expenses constitute the net losses for the said periods.

For the six months ended June 30, 2021, depreciation and administration expenses (equivalent to net loss) amounted to P0.89 million and P1.05 million, respectively. The decrease is on account of the full depreciation of some items.

Accounts payable and accruals increased by about 5% to P183.82 million from the year-end balance of P175.55 million on account of continuing care and maintenance activities.

The Company intends to raise capital within the year to fund exploration drilling and settle some liabilities.

Fair Values

The methods and assumptions used to estimate the fair value of each class of financial instruments for which it is practicable to estimate such value:

Cash, Receivables, Trade Payables and Accrued Expenses

The carrying amounts of cash, receivables, trade payables and accrued expenses are all subject to normal trade credit terms and are short term in nature, approximate their fair values.

AFS Investments

Fair values of investments are estimated by reference to their quoted market values made during the balance sheet date as of the end of last year. Unquoted equity securities are carried at cost net of impairment in value, since fair value of these AFS securities cannot be reliably determined as these securities are not listed and have no available bid price. The Company has no investments in foreign securities.
